

Controlled Anarchy

a Large Complex Organization goes DevOps

CONTROLLED
ANARCHY

 @martin_thalmann

Hi, I'm Martin!

Swisscom

- leading Telco Provider in Switzerland
- a large complex organization

TRANSFORMATION

JOB ARCHITECTURE

SELF-ORGANISATION

PERFORMANCE MANAGEMENT

What I talk about when I talk about DevOps

BizUx
ArcDev
SecTest
GovOps

Silo organizations lead
to conflicting targets

TRANSFORMATION |  @martin_thalmann

Project Management is the
wrong way in a VUCA world

Start your DevOps Transformation with a Minimum Viable Product

TRANSFORMATION |  @martin_thalmann

Community of Practice –
networks are stronger than
hierarchies

Change the paradigm, not just
the label

Dev + Ops - Truly share
responsibilities

@martin_thalmann  | TRANSFORMATION

Controlled
Anarchy –
autonomy and
alignment are
crucial

There is no Business
without IT

Foster T-Shaping to support team responsibilities

Existing Job Architecture in agile
teams lead to frustration due to
unfair grading

JOB DESCRIPTION WAGE SCALE	DEVOPS ENGINEER	LEAN AGILE LEADERS 4 TEAMS	LEAN AGILE LEADERS 4 ORG.
A			
B	V		III
C	IV	III	II
D	III	II	I
E	II	I	
F	I		

Job Architecture shows positiv results –
and further room for growth

We trained our
employees to work
in a waterfall world

@martin_thalmann  | SELF-ORGANIZATION

Team start to take
responsibilities
– the more support
the clearer

Is your boss really
the best person to
evaluate your
performance?

@martin_thalmann

PERFORMANCE
MANAGEMENT

Development,
Performance &
Feedback are most
valuable when
discussed in the
team

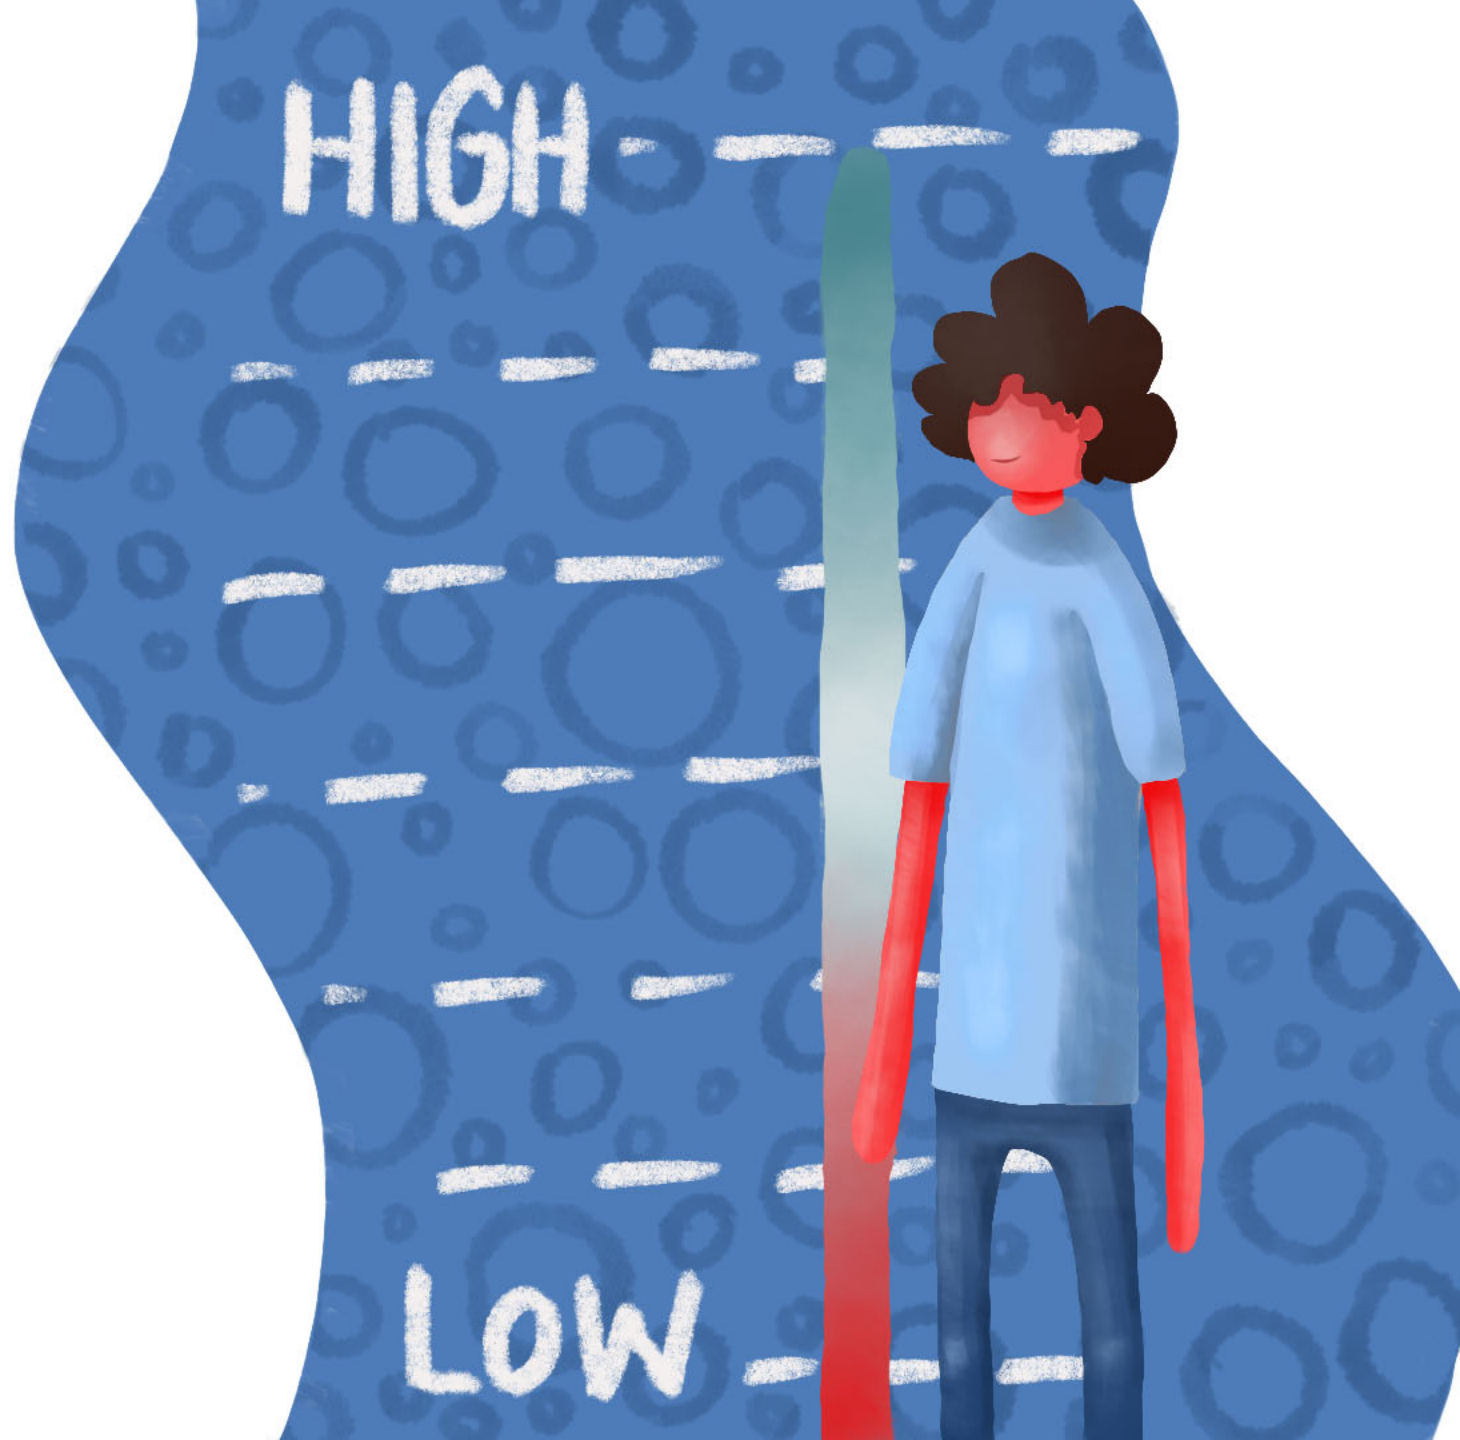

@martin_thalmann

Giving feedback
must be learned

Manage your Transformation like an agile product

New Job Architecture helps agile teams

Foster self-organization

Bring everything possible to the team

THANK YOU!

Hope to see you at
